Times of the tide are taken from the U. S. Coast and Geodetic Survey tables. The tides at Lahulu and Hilo occur about one hour earlier than at Honolulu. Hawaiian standard time is 10 hours 30 minutes slower than Greenwich time, being that of the meridian of 157 degrees 30 minutes. The time whistle blows at 1:30 p. m., which is the same as Greenwich, 3 hours, 6 minutes. The Sun and moon are for local time for the whole group.

MISMANAGEMENT CHARGED.

J. M. Monsarrat's Removal as Trustee of an Estate is Asked.

In the case of J. M. Monsarrat vs. Makamoonia et al., answer has been made by Elizabeth Cummins, John Kahlo and Elizabeth Kahlo in which charges of mismanagement are made against the plaintiff. The defendants say that plaintiff held certain property in trust for twenty years and that there remains in his hands a balance of \$963 from the original \$2,289.60. Defendants allege that "J. M. Monsarrat was, and ever since has been grossly negligent, careless and unbusinesslike in the care and management of the said sum of money" in that he has failed to keep separate accounts of said money and of said trust property.

Defendants ask that Monsarrat be required to make an accounting from August 6, 1884 and that he be required to pay interest on amounts which were lying idle in his hands. They further ask that Monsarrat be removed, that he pay the costs of the suit and that all property be turned over to Elizabeth Cummins as trustee. Smith & Lewis and L. J. Warren for defendants.

DANCE FOR THE FLEET

Manager H. Winnie Lake of the Young Hotel is issuing invitations to the officers of Admiral Glass's fleet for what promises to be the biggest social function given in their honor during the stay of the fleet here. The two splendid ball rooms of the hotel and the roof garden are to be used for a big dance at which it is expected all of the officers of the fleet will be given quite a farewell by the many people who have entertained them and been entertained by them here. The dance is to be given on Thursday evening, and possibly would have been held earlier were it not for the fact that a number of smaller affairs in which the officers are interested are to be held on evenings prior to that date, and Mr. Lake wished to hold the affair on a date that would not clash with that of any other function in order that all of the officers could be got together to meet as large and representative a set of Honolulu people as possible.

Mr. Lake is desirous that all of the people who have assisted in making the stay of the officers of the fleet in Honolulu pleasant will avail themselves of this opportunity of meeting them at one big function prior to their departure.

GOLF A MAKER OF CHARACTER

THE FASCINATING OUT-DOOR GAME AND THE LESSON IT TEACHES.

There are a good many people who think that golf is just foolishness. These are generally people who have watched one or two games without really understanding them and have never taken driver, loft or putter into their own hands and played. There is no game that grows in fascination more rapidly than does golf. The peculiar sense of freedom that it gives, the constant yet not violent exercise, the beauty of the long stretch of greenward resting, untwisted eyes, and the spaciousness that belongs in equal measure to few other common sports are recommendations that need only to be known once to be forever enjoyed.

But there is more in golf than exercise and recreation. There is moral training of a very high sort. For one thing, it is a game that keeps the conscience tender. Who is ever to know if the solitary player lifts his ball over the exasperating bunker that he has tried unsuccessfully a dozen times to strike over? Or if he move it out just an inch or so from the tall, uncut grass at the side of the links, what difference will it make if he does not count this a stroke in his score? Golf is, in fact, largely between a man and his Maker.

The most striking disciplinary lesson in golf, however, is the one driven home at every tree. "Keep your eye on the ball." The beginner learns that, in addressing the ball, as it is called, this is the all-essential thing to remember. The club must be properly grasped, the important shoulder swing must be mastered, but never at any moment must the player's eye wander from the little white ball. It reminds one of the old story of the lawyer who was looking for an office boy to train. He was invited to address a Sunday-school, and in the course of his remarks told the children a story. The chief figure in the story was an old man, "Dad," who went out behind the woodshed with a gun to shoot an owl. At this point in the story the lawyer wandered into generalities. He rambled on for a time, but finally returned unexpectedly to his story. "And now, children," he asked, "who shot the owl?" There was great perplexity and silence. One boy's hand went up. "Please, sir, Dad shot the owl."

"My boy," answered the lawyer, "he did. And you will make a judge." This boy, who kept his mind on the main point, one may conjecture, would have made a capital golf player. He would have kept his eye on the ball every time. Other players might be standing about to distract his attention and make him miss his play. Not he. He would look at his ball as if his life depended on it, and when he drove off his ball would soar high and far. Golf is a great game. It is a deep, canny game, like the Scotchman who originated it. And the boy or girl who plays it well gains more than fresh air and good fun.—Indianapolis News.

THE ADVANTAGES CEMENT ROOFING

POSSESSES OVER
Tin, Iron and Steel Roofing
IT CANNOT RUST.

Gases, fumes, moisture, coal soot and smoke cannot injure or effect cement roofing. It is better adapted for application over uneven surfaces, such as old shingles or metal roofs, obviating the expense of removing the same. It will not rattle from wind and storm, nor create any noise from rain falling upon it. The materials used in cement roofing are the best non-conductors of heat and cold known, therefore it will keep the building warmer in winter and cooler in summer than a metal roof.
